CMAA Leadership Library

In this changing industry, having the right technical skills is just not enough!

As collaborative project delivery methods are being used more and more, great people skills are critical to the success of projects and companies. Set yourself and your organization apart from the competition by improving your emotional intelligence and leadership skills through the **CMAA Leadership Library**.

Each course in the program is built upon the two foundational courses:

1. Emotional Intelligence in the AEC Industry: Part 1
2. Emotional Intelligence in the AEC Industry: Part 2

Follow-up courses include:

3. 12 Steps to Great Relationships
4. How to Present with Power and Influence
5. Think Like a Genius: Innovation, Creativity, and Problem Solving
6. Stress Management for Peak Performance
7. Primal Safety: A Gut Level Approach
8. Diversity and Inclusion in the AEC Industry: Beyond Compliance
9. From Head to Heart: How to Differentiate Yourself in the Market Place
10. Killer Communication Skills
11. Time Management and the Use of Lean Principles
12. Workforce Development: How to Attract & Retain the Best People

**Additional courses will be added to the library in 2020, including courses on High Performing Teams, Generations, Yoga and Meditation, and Lean and Pull Planning.*

Designed specifically for AEC industry professionals, the CMAA Leadership Library is an interactive and self-paced online learning experience based on the award-winning Emotional Intelligence program by BDI. It has been designed to support all learning styles and seamlessly combines interactive text, audio instruction, video demonstrations, hands-on exercises, and competency assessments to provide the best possible learning.

The library also contains bonus material, including all of Brent's books, a meditation CD, and numerous other evaluations and exercises to create positive and lasting change in you, your teams, and your organization.

Brent Darnell International (BDI)

Brent Darnell earned his Bachelor's in Mechanical Engineering from Georgia Tech in 1981 and began his own construction career. He was an MEP Coordinator and Senior Project Manager on complicated projects like the Brook Army Medical Center and housing for the 1996 Summer Olympic Village. Because of these first-hand experiences, Brent speaks with a deep understanding of his audience and the problems they commonly face. His passion is to transform the industry into one that is more collaborative, more relationship driven, and more fun. The impact of Brent's unique programs spans the globe and his clients include Skanska, Kiewit, Balfour Beatty, Clark, Manhattan, McCarthy, Heery, Beck, Barton Malow, Batson Cook, Granite, Brasfield & Gorrie, Jacobsen Construction, AGC, ABC, DBIA, COAA, and CMAA. He is also an adjunct professor at Auburn, Penn State, and Virginia Tech, teaching emotional intelligence and people skills to their technical students.

Construction Management Association of America (CMAA)

The Construction Management Association of America is an industry association dedicated to the practice of professional construction management. CMAA represents more than 16,000 members including federal/state/local government and private sector owners, construction consultants, technology suppliers, academia, and legal organizations all with a common goal: to improve our nation's infrastructure.
